143—Furlough & Leave

Applications for furlough and leave, prepared on I A. F L. 1170 are frequently made out incorrectly and without reference to the instructions contained in A. R.I. Vol. II and the footnote on the form

The following are common faults in submission:—

(A) [illegible] the officer wishes to proceed on leave the w[illegible] be added, in order to avoid any subsequent [illegible] d the officer eventually proceed on a different date.

[illegible] required when the period of privilege leave does not exceed 60 days

(C) *Para* 9, of I. A F. L 1170 is often not completed at all or incorrectly completed e g in the roll of officers on page 4 of the form the letter "P" is shown against the applicant Neither "P" or "A" should be shown against his name but merely "Applicant". Similarly other officers for whom leave has already been sanctioned during the period that the applicant proposes to take leave, are frequently shown as "present". The roll requires to be carefully completed showing exactly what officers will be absent (from whatever cause) during the period in question, and what officers will be present and who thus will remain for duty, the corresponding entry being made at item 9 on page 1 of the form.

Para 10 on page 1 requires careful completion in all cases where applicable

I am, therefore, to request that all nominal rolls, which accompany a batch of Confidential Reports, be rendered, in future, in accordance with the seniority and under the headings shown in the current Monthly Army List, and that if no report is forthcoming upon any individual Officer who is actully on the strength of a Unit, an explanation covering its omission be entered on the nominal roll."

Annexure to D. O. 246/25.

A. G. India's A/30805/1 (A. G. 10) 9-2-25.

With a view to removing the anomaly brought to notice in Headquarters, Lahore District No 19752/1/A, dated the 7th October 1924, (copy received with Headquarters Northern Command No 24434,1/ A. 2, dated the 28th October 1924) it is proposed to recast paragraph 295, Pay and Allowance Regulations, Part I, as follows :—

> "To entitle an individual to the first rate of good conduct pay, he must not (1) during the two years preceding the claim have incurred more than one red ink entry in his defaulter sheet or (2) during the one year preceding the claim have been convicted by Court Martial or have been undergoing imprisonment by sentence of Court Martial Before he can be advanced to a higher rate he must be clear of a red ink entry for one year (exclusive of any period of imprisonment) preceding the claim."

2. Before taking steps, however, to publish this amendment, will you kindly say whether, in your opinion, the case would be adequately met by the above, or whether you have any other remarks to offer therein

Headquarter Lahore Distt No 19752/1/A , 7-10-24.

The following case has been represented by the O. C British Infantry Training Company, attached to 10th/17th, Dogra Regiment, through Jullundur Brigade Area, for a ruling

> Sepoy "A" with 1 year 10 months service is awarded 2 months R I. by sentence of Court Martial On completion of sentence he has two years service and having only one red ink entry in his defaulter sheet he is, therefore, entitled to first rate G C Pay vide Pay & Allowance Regulations, Part I, para 295.
>
> Sepoy "B" with 2 years 1 day service is similarly awarded two months R I. by Court Martial Having been granted first rate G C Pay this is ipso facto forfeited vide P & A Regulations, Part I, para 296 (b) and cannot be restored until one year after termination of sentence
>
> Therefore Sepoy "B" by having two months more service that Sepoy "A" loses 14 months G C Pay, while Sepoy "A" loses nothing

The question is raised as a parallel case has recently occurred in the above unit.

To cover cases such as the above, it is requested that paras 295 a d 296 of the above cited Manual may be reconstructed.

It is suggested that Sepoy "A" should be required to complete a further period of one year, without incurring a red ink entry, with effect from the date of the termination of his sentence.

418—Conservancy Establishments —

Ref A I I 341/1924 and D Os 483, 531, 616 and 1262 of 1924.

1. In view of Q M G in India's Circular No 60163 Q M G 3 dated 6-2-1925 (D N 78/1925), it is necessary to verify certain conservancy establishments actually employed by units, detachments, and formations, which establishments were taken over from the Cantt authorities on 1-5-24, and to ascertain that none of the particular establishments detailed in para 1 of Q M G in India's Circular quoted above are paid by units

2. It is further necessary to ascertain what amount of supplementary allotment is required for the current financial year by units under A. I. I 341 of 1924 for the purpose of replacing the conservancy establishments paid by the Cantonment authorities prior to 1 5 24, viz., for "disposal of filth, etc." within the Area of Unit Commanders

3 (a) In the case of British Units, where a liberal establishment is already provided for viz, Peace establishments, plus those authorised in Army Tables, Miscellaneous Services, Part 1, Table 6, and also British Station Hospitals, which are provided for under Army Tables, Medical, no additional help should be required as regards allotment of special funds to meet extra establishments.

(b) Os. C. British Units will however confirm that such is the case when rendering the report called for below

(c) If rubbish and filth carts are maintained, they will further certify that such are actually employed within the Unit's Area and are necessary, and state whether or not their supply is covered by A T. M. S, quoted above—if not, the authority for maintenance of such to be stated, and cost quoted, indicating how the expenditure is adjusted monthly

4. As regards Indian ... stablishments for the "working of latrines" ... Peace Establishments, funds will be allotte... are found to be necessary, as was done last year (I) O 1262 1924.) In their case it is therefore necessary to obtain revised estimates of allotments required to meet the cost of the minimum additional conservancy establishment necessary under the New Cantonments Act, for the purpose of carrying out the work which was done by the Cantonment authorities prior to 1-5-24 Such estimates should be based on the results obtained during the past year in the employment of these extra establishments.

5. Os C Units British and Indian) and formations will therefore complete, so far as applicable, the proforma given in the Annexure to this order, indicating ALL conservancy establishments employed, and if any special allotment is required as from 1-4 25 to meet the cost of necessary extra establishment not already provided for in PEACE ESTABLISHMENTS and A. T. M. S.

6. Reports (vide paras 3 and 5) will be rendered through the usual channel, so as to reach D H. Q, by 25th April. Explanatory memos may accompany proformas where necessary.

7. In any case where genuine doubt exists as to the correct interpretation of this order, the unit concerned should communicate with this H. Q. forthwith (direct, if necessary) before completing the pro-forma.

452—Retirements and Resignations

Intimation has been received from the War Office that some officers when applying to resign their commissions, are in fact, eligible by length of service to retire with gratuity or retired pay

An officer who retires on retired pay, or with gratuity is held liable to serve in the Reserve of Officers, whereas an officer who resigns his commission is only appointed to this Reserve at his own request

In order to avoid delay and unnecessary correspondence therefore, it should, in future, be verified before forwarding applications for retirement or resignation of officers to the War Office, whether officers who are eligible, to retire with gratuity or on retired pay wish to 'resign their commissions or 'retire'.

(b) On receipt of applications from officers to retire or resign voluntarily the War Office procedure—unless a specific date is stated—is to carry out the retirement or resignation with effect from the day following the date of the London Gazette, i. e, about a fortnight from the date of receipt of the applications at the War Office

This procedure however frequently results in protracted correspondence to alter dates of retirement or resignation consequent on the grant of leave of which no mention has been made in the application, and there is also a risk of retiring an officer whilst on the passage home

To obviate these difficulties it must be stated when forwarding applications whether leave is being granted and if so the approximate date retirement or resignation should be carried out

(c) Officers on leave at home, who decide to retire or resign their commissions must, unless the circumstances are exceptional, submit their official applications, through the proper channel in India at least one month before the expiry of their leave

470—Inspections

D. N 150/24 as amended by D N. 170/24 and Westcom 2487/1/G/32 of 17-4-25 is republished below for compliance when the G O. C.-in C. Western Command, inspects a unit, and on such other occasions as may be ordered

D N. 150/24.

(a) Inspections of troops in the Western Command will be made by the G O C-in-Chief, or his staff, in order to ensure that the systems and principles laid down in text books and orders are correctly appreciated and uniformly applied

(b) Particular attention will be given to such points as will enable the G. O C-in-Chief to form a judgment on the efficiency of officers and other ranks, on the handling of troops, on the standard and system of training, on the serviceability of equipment, and generally on all that affects preparedness for war.

(c) No personal interference whatever on the part of an inspecting staff officer will be made when watching troops at training, inspecting duties being confined strictly to observation, if a glaring departure from the regulations is observed it will be pointed out to the unit or formation concerned, and reported to the G O C-in-Chief, but on no account may work be interrupted or interfered with during its progress

(d) Particular attention will be paid to the manner in which officers handle the units under them, so that a correct judgment on the efficiency of the officer and unit may be formed, this is specially necessary in the case of company, battery and squadron commanders in view of the fact that the success or failure of the modern combat depends in a very large measure on the efficiency of these officers

(e) The same principles will be applied in the case of observation of higher training and the combined training of all arms as, the larger the units concentrated for training become, the greater will be the opportunities for testing and determining their readiness for war

(f) Staff and Departmental Officers of the Western Command H Q when inspecting or touring will invariably get in touch with and study the convenience of the district, brigade and station headquarters concerned They will bear in mind that it is their duty to assist formations and units to the full extent of their powers by reporting to H Q any difficulties which may be brought to their notice during their tours.

(g) Whenever the G. O. C.-in-Chief visits a unit, he will be given information on the following :—

I. TRAINING.

(a) Parade State, Employment of all officers to be shown.

(b) Number of qualified instructors and specialists, both Officers and N. C. Os.

The regulations on this subject are contained in para. 1357, K. R's. which must be strictly complied with by all concerned.

2. In order to enable the diary to be kept correctly the following procedure must be adhered to:—

(i) The Medical Officer, who is the Sanitary Adviser, should not confine his inspection of the barracks, lines or area to only one day in the month but should pay frequent visits to his lines to satisfy himself that the sanitary conditions are satisfactory.

(ii) He should, at least once a month, enter a report in the sanitary diary, bringing defects, and recommendations for the remedying of these defects, to the notice of the O. C concerned.

(iii) The diary will then be seen by the O. C. who, if necessary, will pass the diary to the Engineer Officer for his information and any action he may consider necessary (as regards petty works and repairs), the latter returning the same to the Officer Commanding

(iv) The diary will then be returned at once to the Medical Officer who will at once submit it to the Senior Medical Officer concerned for his information and return

(v) If the Senior Medical Officer considers that insufficient notice has been taken of adverse reports and recommendations by those concerned, he will at once bring the matter to the notice of higher authority.

3. It is not sufficiently recognised by Os. C Units, etc., and Medical Officers that these sanitary diaries are most useful and valuable records to hand over to those who succeed them in the administration of any particular lines, barracks or areas, as they should show what has already been done and what more still remains to be done in the future.

338—Houses—(Appropriated under Act VI of 1923.) Provision of Works therein.

(a) "Repairs" and "Works," in connection with appropriated houses, must not be confused as the rules relating to expenditure on both items are quite different

(b) Houses taken over on repairing leases are maintained from M E. S. funds in exactly the same way as Military Buildings borne on M. E S Returns

(c) As regards Works :—

(i) The House Accommodation Act VI of 1923 does not deal with the subject.

(ii) The obvious assumption is that any such works should normally be carried out by the landlords and the rent paid to them revised on a basis of the increased capital cost of the property.

(iii) There is no obligation however on the part of a landlord to carry out any work in connection with his property.

In the event of the landlord objecting to do so, the case should be reported to H. Q. Sind Rajputana District for disposal.

(iv) If the work is considered really essential, the matter will be reported to H. Q. Western Command, with the request that the sanction of the Government of India may be accorded.

Such sanction must not be anticipated, save in very exceptional circumstances.

As a rule sanitary reasons alone will justify a departure from the ordinary procedure.

(d) It must be clearly understood that appropriated houses are private ones and as such no expenditure from the Minor Works Grant can be incurred on them without the sanction of the Government of India.

(e) Reports should accompany each estimate, giving a full explanation of its necessity

The Government of India, invariably, demands full particulars of each, so the Reports accompanying the various estimates must be complete and self explanatory and the address of each house must be given.

881.—Electric Installations and assessment of rents. *In cont. of D. O. 796/25.*

(a) The method of calculating the assessed rent (which included rent for electric installation) of an appropriated house, in vogue before the 1st May 1925, is hereby cancelled.

The method of calculation will, from the 1st May 1925, be as follows:—

(i) The monthly rent payable by Government to a landlord for the house (including electric installation) will be subdivided into —

(A) Rent for the building itself, p. m.

(B) Rent for the electric installation, calculated at 5/6th % per month on the capital cost of such installation.

(ii) The usual percentage to cover repairs will be added to the rent for the building itself—See (A) above, this gives:—

(C) The assessed rent of the building.

N. B. Where the original capital cost of the building can be ascertained, the percentage to be added for repairs will be 1 and 5/8ths of the capital cost of the building (less Electrical Installation.)

Where it is not possible to ascertain the original capital cost, the rent payable to the landlord (for the building only—See (A) above) will be taken as 6 % of the capital cost) and 27 % of this rent (= 1 and 5/8ths of the capital cost) will be added for repairs

(b) EXAMPLE

A 5 unit house (suitable for a married officer—according to the scale—or for 4 single officers)

Rent payable to landlord by Govt for house (including Electric Installation) Rs 110 p m.

divided into—

(i) Rent for the building itself Rs. 100 p m

(ii) Rent (5/6ths of capital cost p m) for the Electric installation (or, 4 single quarters at Rs 2/8/-) Rs. 10 p. m.

Assessed rent for the building itself (or 4 single quarters @ Rs 31/12/ is, therefore, Rs 100/-plus Rs 27/-)—Rs 127 p m.

A married officer, under the new pay rules, occupying the quarter will, therefore, forego his lodging allowance and pay Rs 10/- p m Rent for Electric Installation

A married officer under the old pay rules, occupying the quarter will, therefore, pay Rs 127/ (assessed rent of building) or 10 % of his salary (whichever is less) and Rs 10/- p m for rent of E I

A Single officer, under the new pay rules, occupying one quarter (or unit) will, therefore, forego his lodging allowance and pay Rs 2-8-0 p m Rent for Electric Installation.

905—Anti Fire Appliances *D O. 784 and 876 current are hereby cancelled.*

1 The policy of A H Q regarding anti fire appliances is to abolish the use of patent fire extinguishers whenever possible

It is considered that the cost of maintaining them is not compatible with the rate at which they deteriorate

2 Anti fire appliances should take the form of fire buckets ready filled with water, failing which, sand.

3 The numbers of buckets authorized will be found in "Supplement to the Army Tables, Miscellaneous Services, Part II, Sec. II–A" Table 66-L pages 13, 14 & 16 under the nomenclature of "Pails, iron, galvanized, 3 gals."

4 Any buckets required in excess of those sanctioned by the above mentioned table, will take the form of Kerosine oil tins, which can be obtained from the I. A. S. C. on the authority of a Station Order

5 Ruthless demolition is probably the best prevention of an extension of the fire once the immediate use of buckets has failed to extinguish it.

GENERAL STAFF BRANCH.

980—Signalling.

Signal Training, Part I, (India) Section 110, para 4, and onwards is reconstructed as follows —

4 The test will be based on a tactical scheme or schemes with a view to judging the collective capabilities of the signallers of a unit in work which might legitimately be allotted them on service

Where possible it is desirable that the tactical scheme should be one on which troops are in any case to be employed The period of Brigade Training is therefore suggested as suitable Troops are however not to be employed on a scheme which is set for the sole purpose of testing the signallers of a unit.

5. The scheme should comprise a whole day's, or if necessary, two days' work and should necessitate the use of all instruments held on charge: a portion of the test should be carried out at night.

The work should be carried out without any pre-arrangement or rehearsal and if possible over unknown ground

6. An inspecting officer can only watch the work of one unit at a time, where therefore only one inspecting officer can be made available, not more than one Infantry unit will be tested on any one day or night

7. The inspecting officer will see that the Signal Instructor or, in his absence, the assistant instructor issues the necessary instructions to the signallers on the orders given for establishing communication in connection with the scheme He will take steps to ensure that the work is evenly distributed among the men composing each station.

In completing his Report on I. A F. X1870 (see Appendix IX) the inspecting officer should take into consideration the following points when filling in the various columns of the Forms.

COLUMN II (Suitability of dispositions of signalling parties.)

(i) Nothing should be allowed which would be impossible in War (e.g. signallers on the Sky-line)

(ii) Economy of personnel

(iii) General arrangement of stations

(iv) Rifles together, guarded and ready to hand

(v) Station prepared to defend itself

(vi) Men not on actual jobs, resting

(vii) Discipline

COLUMN III Aptitude in gaining and maintaining communication.

(i) Opening up without unnecessary delay.

(ii) Rapid and accurate alignment of instruments.

(iii) Alertness of personnel.

(iv) Calls for light.

(v) Correctness of procedure

(vi) Equipment Whether tested and ready for work.

8. The inspecting officer will submit his report on I. A F. X. 1870 in triplicate to the G. O C of the formation under whose orders the test has been carried out.

Brigade Commander concerned, appends his nit through the usual channels, a second copy ... and retains the third

From the latter will be compiled the paragraph on signal training for inclusion in the District or Independent Brigade annual training report.

Applications from unmarried Indian Army Officers of between seven and ten years service, who are desirous of, and recommended for, appointment as Assistant Military Advisers, Indian State Forces (Infantry and Cavalry), will be forwarded, through usual channel, to reach D. H. Q. by 8th December.

2. Each application should be forwarded separately accompanied by a *complete copy* of the officer's record of service.

3 The applicants should be fully qualified for final retention in the Indian Army, and must belong to units other than those recruited from the North West Frontier, Baluchistan and the Punjab, and excluding Gurkha, Garhwali and Burma battalions.

4. Nil returns are required but only from units concerned.

1211—Indian Signal Corps—Transfers.

Attention is invited to I. A. O. 830/25.—the result of the order to date has proved very disappointing and the Signal Corps is still very short of personnel.

While the General Officer Commanding sympathises with the desire of Commanding Officers to retain their men, we must not overlook the fact that our Signal Service forms a very important part of our readiness and fitness for War and that therefore every endeavour must be made to complete the ranks of that Service.

Volunteers should again be called for and applications dealt with in the interests of the Fighting Army as a whole.

All details can be obtained from I. A. O. 830 and by any volunteers themselves from men of the Signal units in Karachi.

To be republished in the orders of units concerned.

Ref. D. O. 981/25 and A. I. I. 959/25, wherein the period of service of Class I Followers is now reduced to 5 years. Units having vacancies in their authorised establishment of Class I Followers should now endeavour to complete their establishment under the new terms of service.

2 Any further difficulty experienced in recruiting such personnel will be reported to D H. Q, giving reasons and establishment deficient. These reports will be rendered on the 15th February 1926, so as to admit of every effort being made to complete the authorised establishment by that date.

3 The employment of Class II Followers as a temporary expedient in place of Class I as authorised, is to be deprecated This procedure should only be resorted to when circumstances render it absolutely essential, as it retards the recruitment of Class I Followers. In such cases application for sanction on I. A. F. A. 497 should be made to D H. Q., through the usual channels, in advance for approval of the District Commander.
